

MULLAN — BUILD —

Mullan BUILD

Public Meeting #3
Intersection Improvements
November 13, 2020

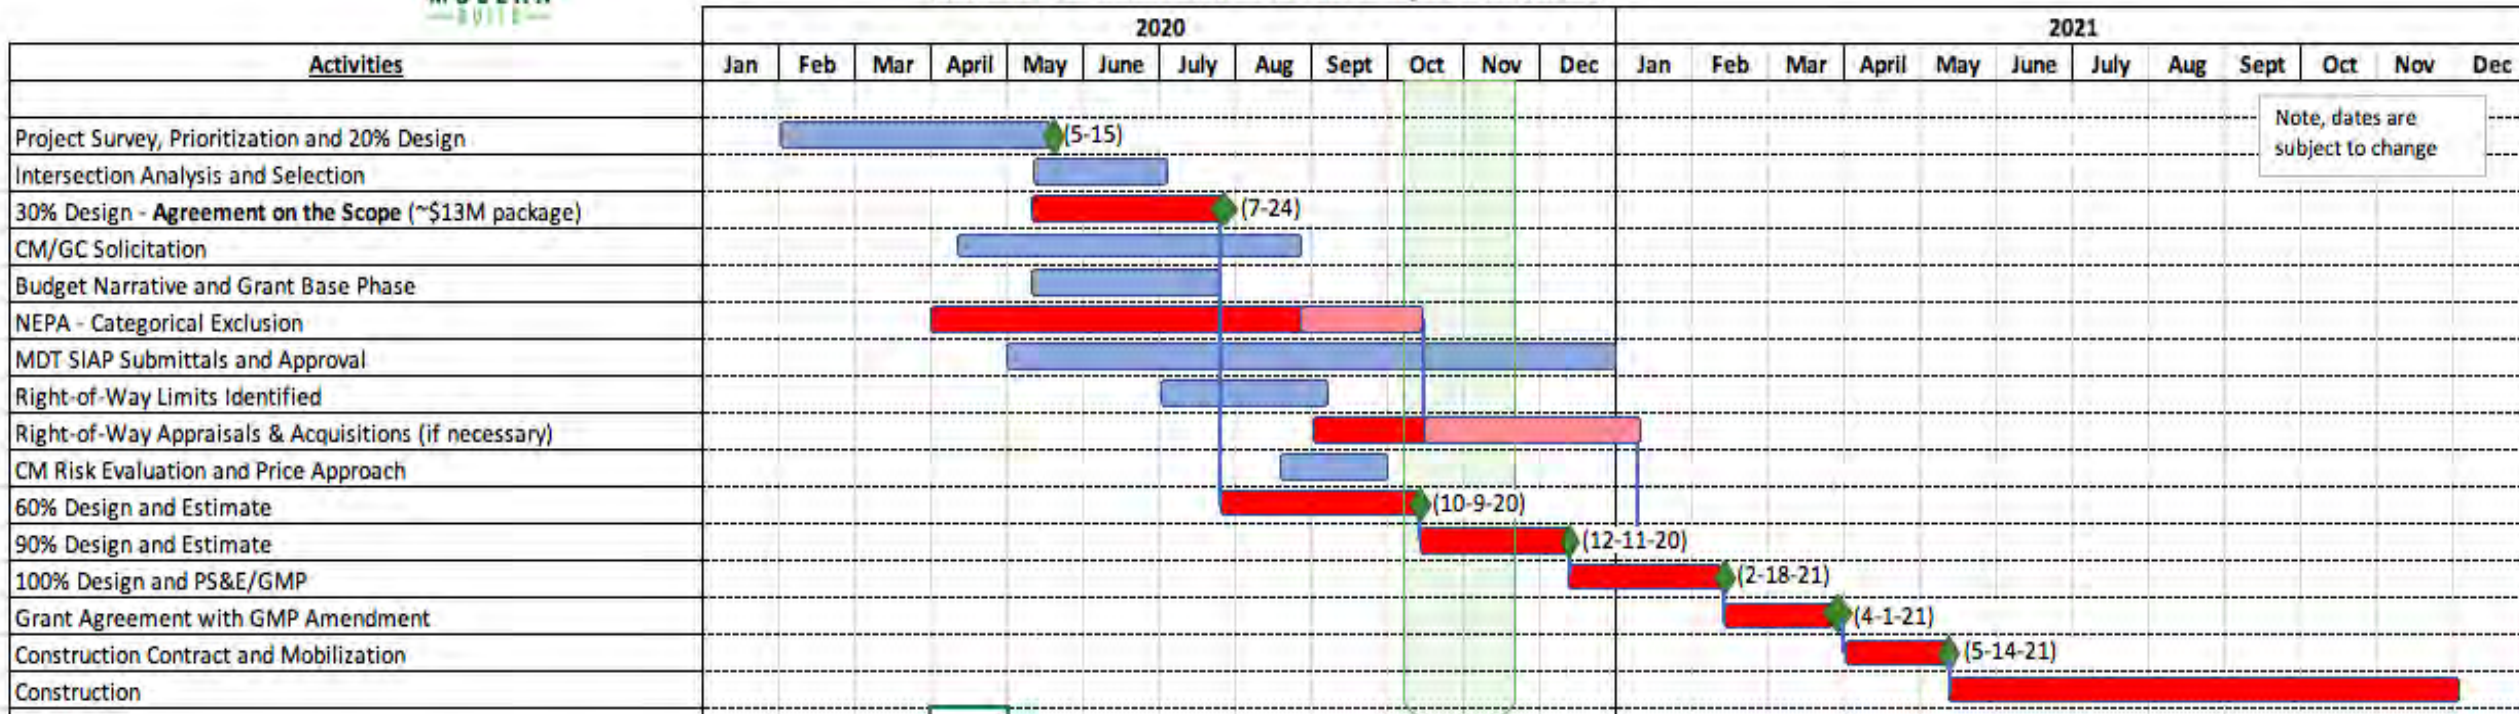

An aerial perspective of a modern urban development. The scene features several large, white, multi-story buildings with flat roofs. Some of these roofs are covered in green grass and solar panels. A central park area with many green trees and a paved walkway is visible. In the foreground, there's a building with a courtyard containing several tables and chairs. The overall atmosphere is bright and modern.

Welcome & Introductions

Project Schedule

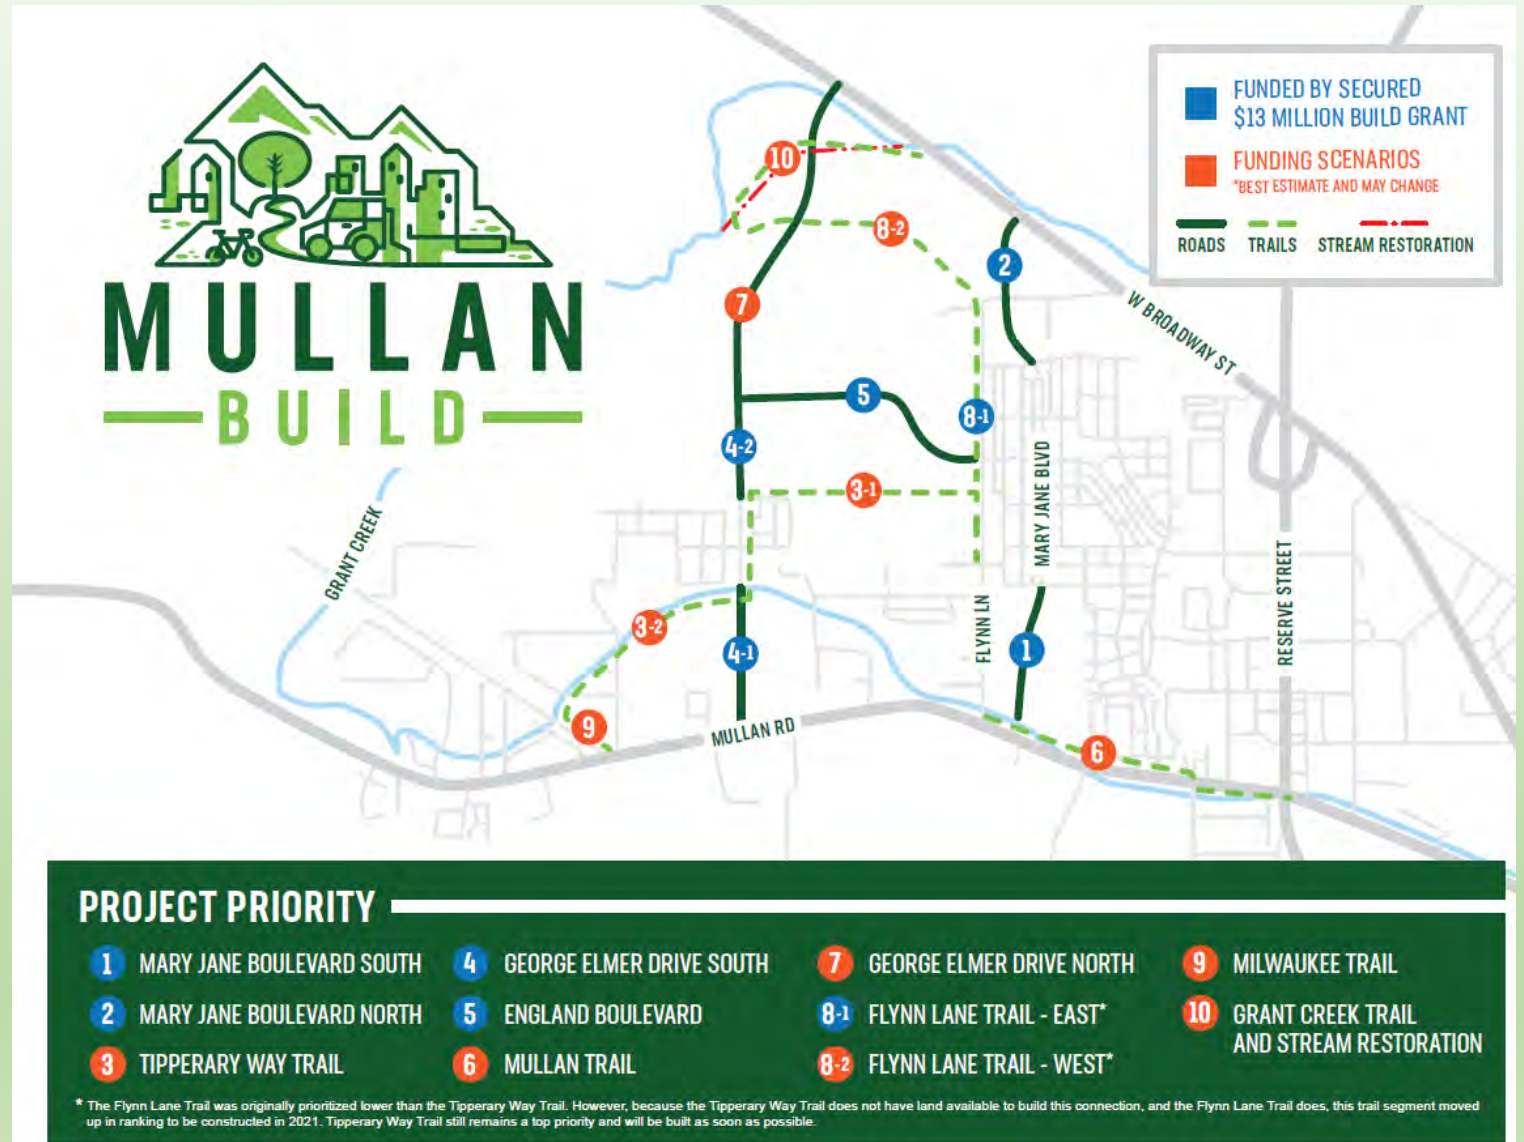

Mullan BUILD Milestone Schedule - updated 10.7.20

BUILD Priorities

- Safety
- Traffic congestion
- Transportation choice
- Access to developable land

Traffic Volume Growth – 2020 & 2050
